

Cloud Data Back-Up

SBackup

For small, medium and large businesses

Did you know ... The average business has \$30,000 worth of computer data. And, we have found that many of them have little or no protection at all.

To a business owner, your data is priceless. The loss of your data can put you out of business. In fact, according to Home Office Computing magazine, 30% of all businesses that have a major fire go out of business within a year. 70% fail within five years.

Online backup service **featuring 100% proactive supervision and verification by our professional technicians** who will contact you by phone if a problem pops up the day before, and **solve it for you!**
