

### **Mitchell resident finalist in competition**

March 26, 2008

Twenty-year-old Brent Schneider, owner and operator of Schneider's Computing & Websites, placed in the top four at the Ace Canada Student Entrepreneur of the Year Regional Competition from March 12-14 in Toronto.

Schneider presented his business, Schneider's Computing & Websites, to a panel of judges against 12 other Ontario regional finalists. The criteria for Student Entrepreneur of the Year were hard work, passion, determination, growth, success, lessons learned, business fundamentals, and vision.

Schneider started Schneider's Computing & Websites at the age of 15 in 2003 as part of a Summer Company \$3,000 grant. Now five years later, Schneider operates a store in Mitchell that he opened in November of 2007.

Schneider's Computing & Websites operated in downtown Mitchell in 70A Ontario Rd., Unit 2.

"I've been doing this full-time since November and it has been great," says Schneider. "It's been enough to keep me going and get me through university full-time."
